

Forthcoming events

Because of the coronavirus the Club has cancelled all its events for the time being. As soon as possible it will resume its programme of national and international car shows, driving events, model register days and social occasions, as well as its regional events, such as pub meetings, local shows and driving and social events in all parts of the country.

The Club's monthly magazine, its technical support for Members, the Club Forum, discounted insurance, the Club Shop, discounts from dealers and the Club's on-line archive are continuing to operate so join the Club now and make the most of the quiet, off-the-road hours until the virus has gone.

And whilst it is not possible to hold conventional events a 'Virtual Concours' is now underway – open to all Members.

You can join the Club from this website or by calling 01780 482111 (in office hours).
